

WORK FROM HOME SECURITY POLICY

Version: 1.0

Last Reviewed: May 2024

Purpose

Establishes security guidelines and compliance requirements for employees working remotely or from home environments.

Policy Statements

1. Employees must connect via corporate VPN for all internal network access.
2. Corporate laptops must use password managers to store credentials.
3. Multi-factor authentication is optional for remote workers using secure home networks.
4. Sensitive hard-copy documents must not be printed at home.
